Our Lady of the Snows School

August 28, 2011

This Week

The children will continue to explore and learn the procedures of the classroom. Some activities they are introduced to include how to use the glue, the scissors, the markers, the paints, play dough, the sand table, the water play, the block area and housekeeping. These activities are available daily for the children to select.

They are expected to handle the materials responsibly and safely, and to return everything back to the shelves when they are finished. We will discuss and help the children establish "rules" for the class.

A family snapshot was requested for the bulletin board in the classroom.

The snapshots create a great deal of conversation among the children as they talk about their families. We have found the pictures helpful in assisting the children with some of the separation issues they may experience as they meet the teachers and new classmates.

Laundry and Snack

The sign-up sheets for the laundry and snack schedules are available in the classroom.

Family Questionnaires

Return your family questionnaires as soon as possible. Please inform us about any food allergies or sensitivities to food. You may include any additional information you feel we should know on the back of the form.

"Specials"

The children have Spanish class on Wednesday and computer class on Thursday at 8:50. Gym is Friday at 8:40.

The children wear the gym uniform of red T-shirt, black sweatpants and gym shoes. Students who do not yet have their uniforms should wear comfortable clothing and gym shoes.
